IDENTIFYING FUND RAISING NEEDS

Currently the major needs of the organization are as follows:

- Facility improvements
- Training equipment
- Low Income months
- Traveling expenses and competition equipment for competing members

A specific challenge here is finding balance in the fundraising to ensure that the non competitive members do not feel pressured or bombarded by fundraising ventures and move away from the club because of the perceived always wanting environment without seeing benefits to their kids.

FUND RAISING POLICY

It is the Karate and Judo schools position that funding for athletes be separate from fund raising for the benefit of all in the dojo as a result fund raising strategies will be separated as follows

GENERAL FUND RAISING
